

DROID 5 – APPLICATION IN OVERLAY MODE

- RICHIE VERMA
- SUNANDAN BARMAN
- KAMAKSHI SHETE
- BLESSON MATHEW SAM
- SANJAY S G

Previous Milestones...

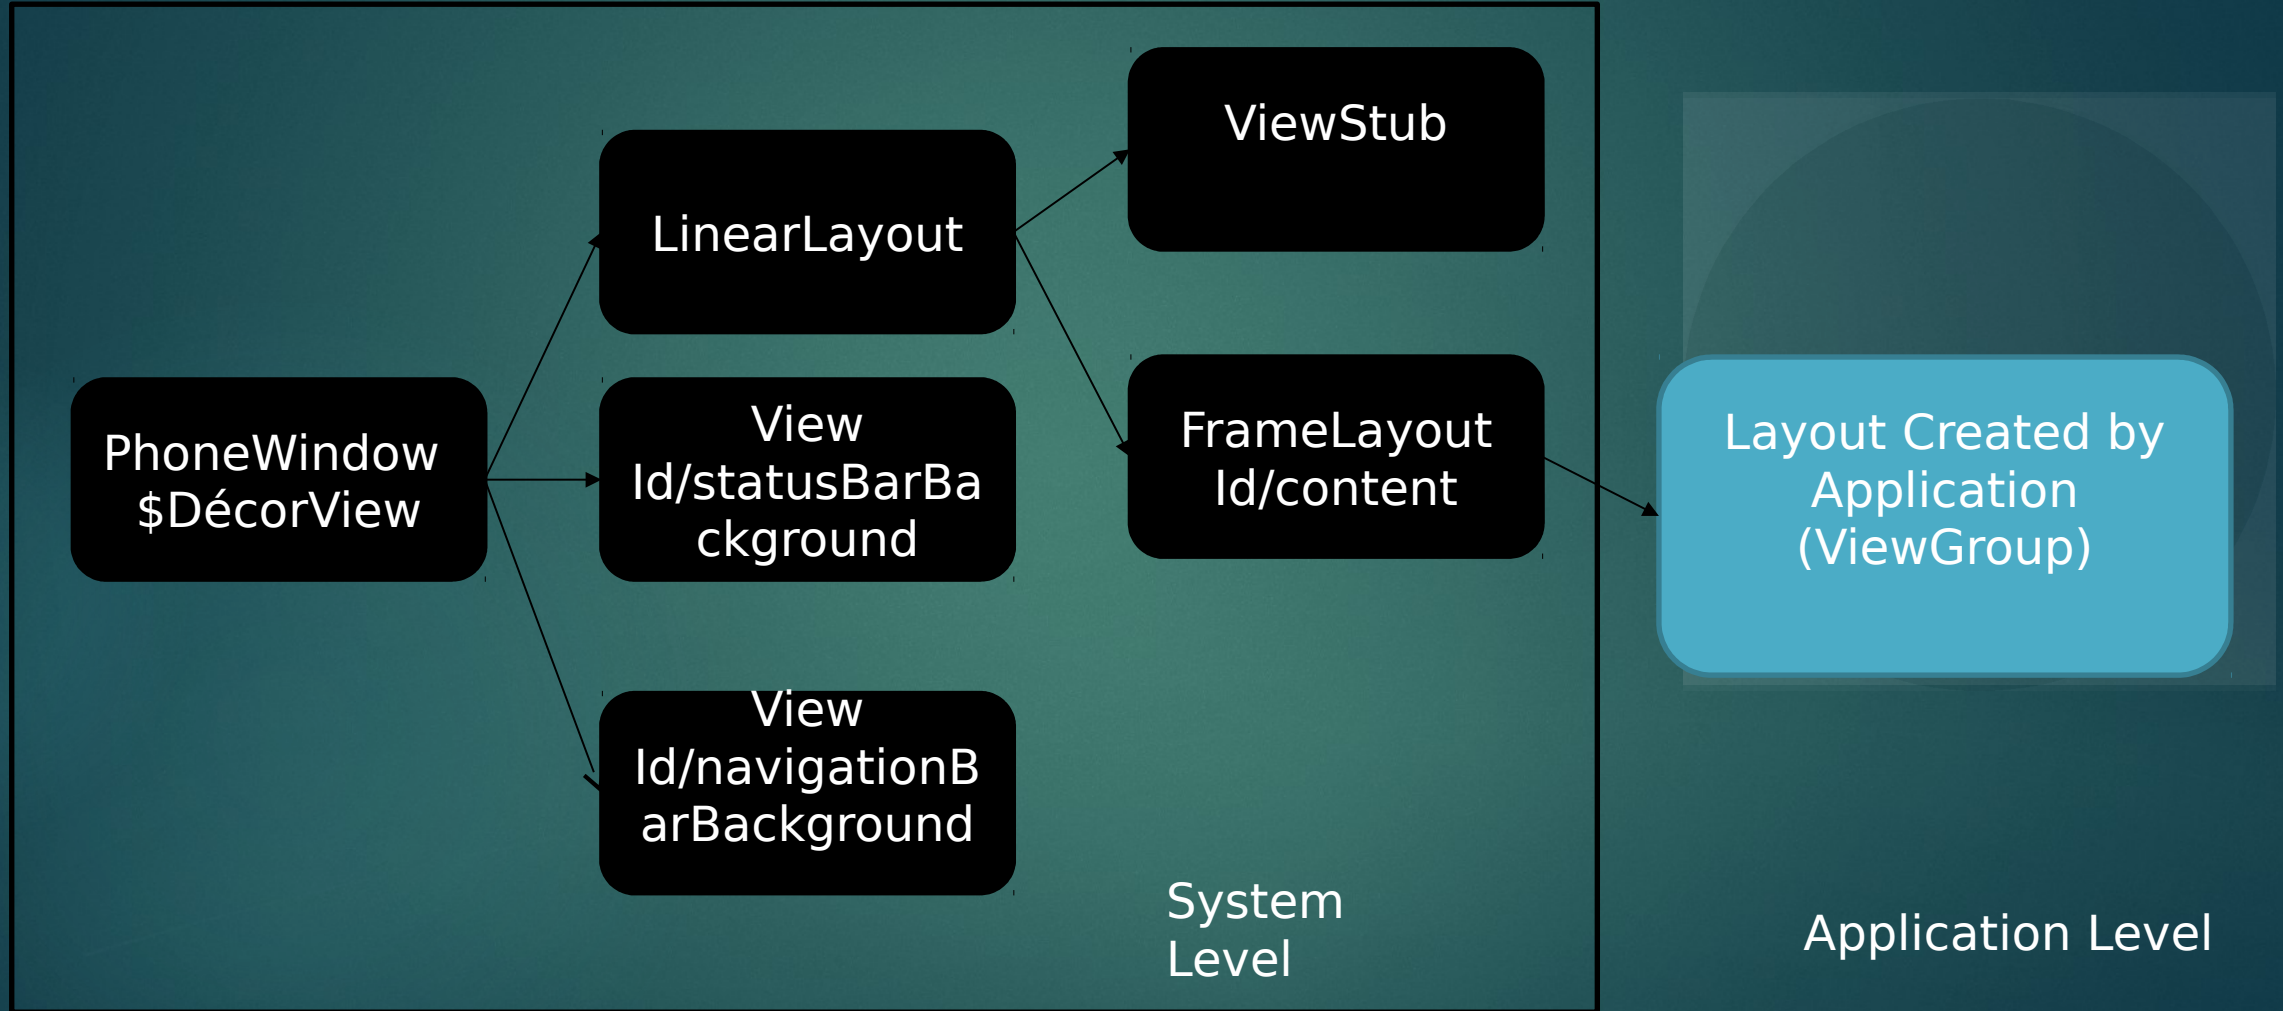

- ▶ Create chat head application
- ▶ Add overlay window
- ▶ Convert the app to a system feature
- ▶ Load one external application in overlay mode
- ▶ Get touch feedback from the application on the overlay
- ▶ Run the application completely from the overlay
- ▶ Create buttons/status bar/notification bar for opening overlays
- ▶ Extend feature to more apps

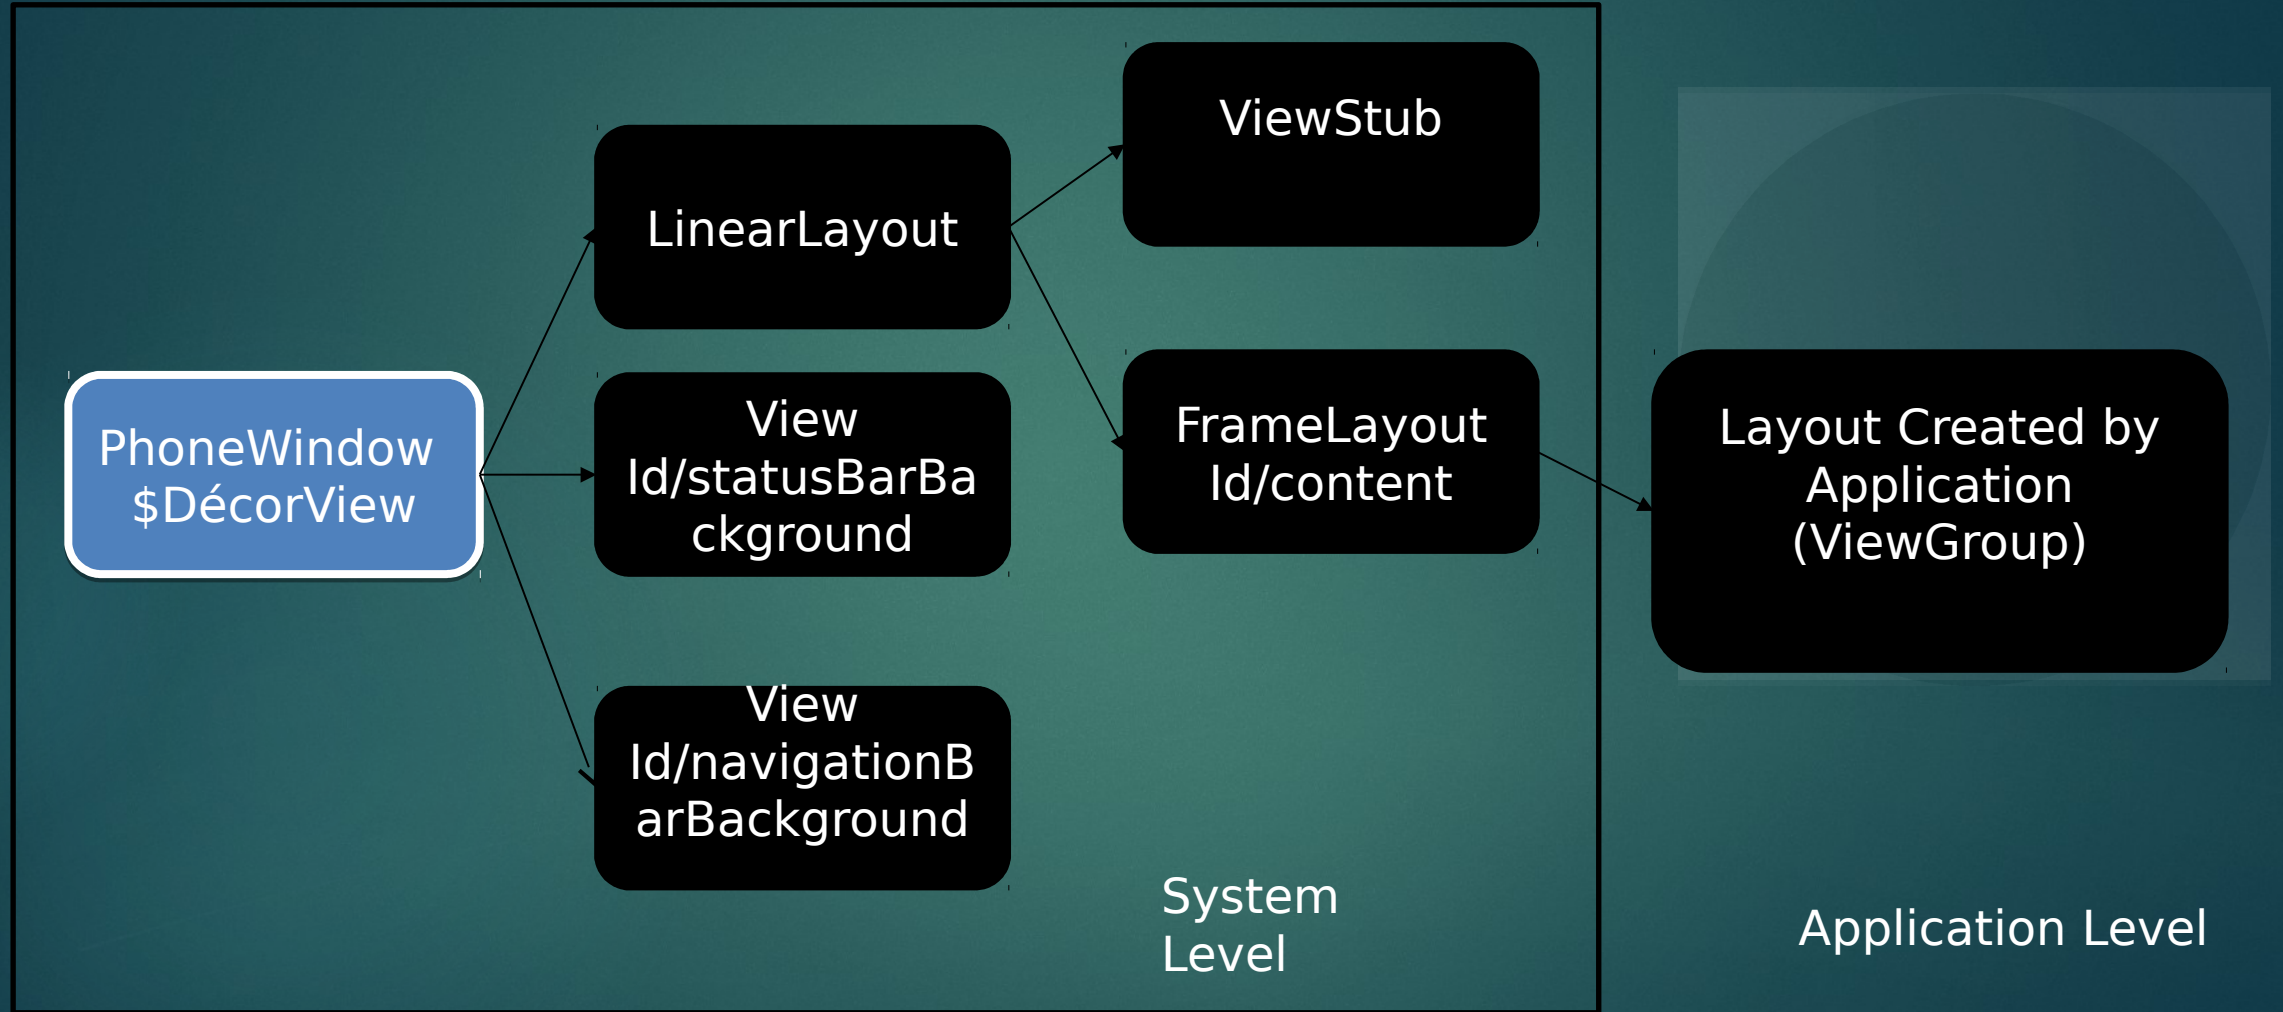

Current Milestones

- ▶ Generalize the feature apps that use layouts other than LinearLayout and FrameLayout
 - ▶ Go back to previous app from overlay app
 - ▶ Close apps opened in overlay mode when chathead service is closed
-
- ▶ Fix background issues
